

American Sign Language is a form of communication and culture that is self-expressive to build creativity, confidence, and character development. American Sign Language also boosts lingual and intellectual developments. Infants can manually communicate needs long before they can first vocally talk. All children will be allowed this opportunity.

A nurturing and creative world of learning.

- 1.) Letters from the Alphabet and numbers day by day.
- 2.) Weekly structured themes.
- 3.) American Sign Language
- 4.) Scholastic teaching resources.
- 5.) Developmentally appropriate practices.
- 6.) Academics.
- 7.) Healthy and safe environment

Our mission is to teach our children the beautiful language of American Sign Language and also acquire programs that will integrate growth and development standards into daily operations. We also aspire to collaborate between teacher, parents, community, and children to build a strong relationship and to expand into great possibilities of growth and opportunities for our children.

Early Development is Fundamental to the growth of your child.
